

# TEST REPORT LUMINOUSITY VS TIME

## Suprabeam Q7c

**Objective:** Test maximum luminous flux (lm) vs time  
**Lens position:** Maximum wide angle (Flood)  
**Instruments used:** Multi function Photometer, Sphere, Luminometer  
**Tester:** RS  
**Date:** 05 august 2013

**Product & P/N:** Suprabeam Q7c, P/N 900.071  
**Battery type:** 4 x AAA, Alkaline  
**Quantity tested:** 3 pieces  
**Room temperature:** 24° C / 75° F  
**Production batch:** CJ-2

This is a three-off test middle value. All head- and hand torches can vary +/- 15% in luminosity, mainly due to variations in LED and battery quality.

\* 1) Max value = 30 sec value 2) Runtime = 10% of max standard\*
